Candy Loading Instructions

1

Remove the “Fun Mech” by loosening the thumbscrew as shown.

2

Remove the cap and foil seal from the bottle of candy. **NOTE:** **Keep the cap so that it may be used to seal the bottles when cleaning mechanism.** **PRESSING FIRMLY**, insert the bottle into the Fun Mech and rotate them as shown.

3

- (1) Place the upper end of the bottle into the pocket of the machine
- (2) adjust/slide mechanism shaft back and forth until thumbscrew threads into threaded plate
- (3) tighten the thumbscrew.

WARNING

****!!! DO NOT OVERTIGHTEN THUMBSREW !!! **** (Over tightening may result in breaking mechanism shaft and/or stripping threads of thumbscrew)

Cleaning Machine & Mechanism

Cleaning Machine – To keep your 12 Color Wrap looking its best , clean the outside of the machine with a cloth dampened with warm water and mild soap once every two weeks recommended.

Cleaning Fun Mechanism

Option 1. Place the mechanism in any home or commercial dish washing unit. Allow to completely dry before re-assembly. The drying process may take several hours. Shake the Funnel Mechanism briskly to check for any signs of remaining moisture. If moisture is found, allow more time to dry.

Option 2. Wash the mechanism in hot soapy water and rinse thoroughly. The Funnel Mechanism should be shaken briskly in the water to loosen any accumulated candy. Allow to completely dry before re-assembly. The drying process may take several hours. Shake the Funnel Mechanism briskly to check for any signs of remaining moisture. If moisture is found, allow more time to dry.

Removing Tube Holder & Waste Bin

Waste Bin and or Tube Holder can be removed:

1. lift up and off the machine
2. Note Both items are held in place by two brass knobs on either side of the machine
3. Waste Bin and Tube holder have a key slot that slides over brass knobs and locks onto machine
4. Return to machine by reversing step one
