V.1

Page 1 of 2

Remove the Bulk Funnel Mechanism Assembly from the unit.

Remove the screw that joins the black funnel to the gray Funnel Mechanism.

Separate the two as shown.

Remove the screws that hold the clear tube to the black funnel.  
Note: Some assemblies may only have one screw.

Proceed to page 2 for cleaning instructions.

Page 2 of 2

Once the components have been separated as described on Page 1 of this document, the items may be cleaned.

**Option 1.** Place the pieces in any home or commercial dish washing unit. Allow to completely dry before re-assembly. The drying process may take several hours. Shake the Funnel Mechanism briskly to check for any signs of remaining moisture. If moisture is found, allow more time to dry.

**Option 2.** Wash the pieces in hot soapy water and rinse thoroughly. The Funnel Mechanism should be shaken briskly in the water to loosen any accumulated candy. Allow to completely dry before re-assembly. The drying process may take several hours. Shake the Funnel Mechanism briskly to check for any signs of remaining moisture. If moisture is found, allow more time to dry.
